## Amateur Program Is Well Received

With nearly 30 contestants entered in all classes the Junior Athletic Club Amateur Night proved a decided success Friday evening, January 27, and an appreciative audience was on hand to encourage each performer with hearty applause. Following is a list of the winners in each class:

Senior Class Solo Singing—1st Frank Smienk; 2nd George Trepanier.

Senior Class Instrumental—1st Earland Zeigler; 2nd Edwin Cannings.

Junior Class Solo Singing—1st Morley Buyer; 2nd Carol Fuller.

Junior Class Instrumental—1st Geraldine Mortimer.

Senior Class Group Singing—1st Lily Fox and Don McLeod; 2nd Gloria Lapp and Edna Lapp.

Junior Class Group Singing—1st Joann Ohlhauser and Shirley Hay; 2nd Roy Hay and Raymond Cannings.

Elocution—Twyla Jassman.  
Eldest Contestant—George Trepanier.

Youngest Contestant—Caroline Sigmund.

George King was the lucky winner in the draw for the blankets.

## Mary Flaws Wins Queen Contest

Mary Flaws topped the contestants in the Carnival Queen contest sponsored by the Carbon Lions Club and was crowned Queen for 1950 at the ice carnival held at the local rink Friday evening. A good crowd of spectators was present to watch the events being run off. A list of winners follows:

Best Dressed 6 years and under — Gwen Warren, Lorraine Holmes, Betty Fox.

Best Dressed 7 to 12 years — Margy Warren, Barbara Nash, Maxine Campbell. Runner-up, Don Warren.

Best Comic 6 years and under—David Adams, Gwen Fox.

Best Comic 7 to 12 years—Hugh Munro, Wesley Warren, Joanne Ohlhauser, Shirley Hay.

Best Clown Act—Mrs. J. Adams, Walter Gleck, Bernard Munro.

Boys' Race, 6 years and under—Albert Charlebois; 7 to 12 years: Donald Kary, Carl Maier, Bernard Munro; 13 to 18 years: Gordon McLeod, Roy Kary, Daun Buyer.

Girls' Race, 6 years and under: Gail Hughes; 7 to 12 years: Shirley Hay, Joanne Ohlhauser, Roxanna Lawton; 13 to 18 years: Cynthia Barnes, Margaret Schmierer, Phyllis Schuler.

Hog Calling Contest—Alf Hovick.

Chuckwagon Race—Gordon McLeod, Daun Buyer, Cynthia Barnes.

Challenge Race — Gordon McLeod, Daun Buyer, Cynthia Barnes.  
Relay Race—Evone Foster, Jim Foster, Roy Kary.

The prize of 30 silver dollars in the Queen draw was won by John Permann. Winner of the \$1 doll and a \$10 bill given as a door prize was Henry Hermanson. Mrs. Verne Dresser held the lucky ticket on the pearl necklace.

## Christ Church, Carbon Holds Annual Meeting

The annual meeting of the parishioners of Christ Church, Carbon, was held in the church basement Wednesday evening, February 1. Very interesting and encouraging reports of the Church Activities from the several church organizations were read. Rev. J. W. Way was in the chair and reported on the Spiritual work of the church. Mr. Hugh Isaac read the financial statement in the absence of Mr. John Atkinson. Other reports were heard from the W.A., read by Mrs. J. Cooper; the Little Helpers, by Mrs. T. Sherring; the Sunday School, by Mrs. J. Atkinson; and the A.Y.P.A. by Mr. Gordon Hunt. The Vicar announced that he had asked Mr. J. Atkinson to be his Warden for 1950. Mr. R.J. Shaw was re-elected people's warden.

The following were elected to the Vestry for 1950: C.H. Nash, C. Cave, H. Isaac, G. Hunt, L. Bramley, A. Bramley, J. Barber, E. P. Wiffin, J.A. Barr and N. Nash.

Mr. Hugh Isaac was elected as delegate to the Diocesan Synod and Mr. C. Cave as substitute.

Auditors elected for 1949 were R.J. Shaw and L. Bramley.

The Rev. J. W. Way thanked all of the members of the congregation for their support and hard work during 1949 and assured them that he looked forward to another very happy year for Christ Church in 1950.

## THIS IS IT--The New Hoover Electric Floor Polisher

Compact, handsome, efficient, the Electric Floor Polisher is Hoover's new home appliance. So easy to use. Your Hoover floor polisher will not bounce or wander as it works and its soft rotating brushes add new lustre to hardwood, linoleum or tile in a matter of minutes. See this new Hoover polisher demonstrated. Check its many exclusive features, lift it, try it — and you'll understand why women who have tried it say: "It's Hoover for me."

## Believes Sun Rays Cause Health Cycles

EDMONTON, Alta.—A university of Alberta professor believed the disease and health cycles among wildlife and humans was caused by the sun's rays.

Professor William Rowan said population cycles were linked with the ultra violet vitamin D rays from the sun. He believed his theory would help solve the mysterious feast and famine cycle which has puzzled naturalists for years.

The Edmonton Bulletin, commenting on the professor's theory, said it also appeared to cast light on why certain human diseases such as mumps, measles and whooping cough occur in regular cycles.

The theory also dovetailed with facts describing Canada's cycling wildlife population. "After analyzing the problem, Professor Rowan decided some mysterious external force was the cause. Covering as it did the whole of Canada, Scandinavia and probably northern Russia. It was too widespread to be caused by mere over-population or disease," the paper added.

### Winter Driving

The following 6 tips on cold weather driving are offered by the Committee on Winter Driving Hazards of the National Safety Council:

1. Get the feel of the road before you start out—you can do this by trying your brakes while driving slowly and away from traffic.
2. Adjust your speed to road and weather conditions. Slow down on wet, snowy and icy roads so you can stop when you have to.
3. Use tire chains on ice and snow. They cut down braking distances as much as 40 or 50 per cent. Chains are not a cure-all for winter accidents, but they will help the careful driver.
4. Keep your windshield and windows clear of snow and ice, fog and frost. Be sure your headlights, windshield wipers, and defrosters are in good working order. You have to see danger to avoid it!
5. When you have to stop, pump your brakes up and down—jamming them on may lock them and throw your vehicle into a skid.
6. Follow other vehicles at a safe distance—remember that it takes from three to twelve times as long to stop on snow and ice as it does on dry concrete.

## YOU'RE TELLING ME

By WILLIAM MITT

Central Press Canadian Writer

A dog owner has worked out a reducing diet for dogs. Just the sight of a strange cat works wonders, too.

If basketball players continue to get any taller there are a lot of gymnasiums in this country that will have to install skylights or removable roofs.

Figs, we read, have a sharper sense of taste than humans. Considering their diet, what a bad break for them!

This is the time of year when harassed farmers wished somebody would tell all hunters that rabbits do not and never have been known to utter sounds like "Oink! Oink!"

A New York chemist claims to have found a way to build houses out of sawdust. If they prove popular the vacuum sweeper is going to be a pretty busy little gadget.

An eastern dentist plans to extract teeth to strains of music. We suggest as an appropriate number: "The Yanks Are Coming".

A restaurant shows customers pictures of food instead of a printed menu. How do you differentiate between the portraits of a two and a three-minute egg?

### IMPORTANT MEAL

Breakfast is an important meal and should contain fuel foods which are sources of heat. Also, breakfast should provide one-third of the daily calorie requirements.

## Let Glamour Travel With You

Covered buttons run from shoulder to cuff and down the bodice of a novelty rayon tweed, (left), just right for travel wear. Huge patch pocket is monogrammed. Ice cream pastel flannel is another favorite for travelling. Four flared panels make the skirt of this preshrunk version, with matching vest, (centre). Brown yarn fagoting trims the luggage-colored wool college frock, (right). Bodice and overskirt are topped with gray wool in this New York dress.—Central Press Canadian.

(By Francis James)

Dear Miss James:

Having read in your column that an amateur could hang paper if he went about it the right way, my daughter and I decided to give our dining room 'the new look'. We have never tried this sort of thing before so we bought a paper with an all-over mottled effect which did not require matching. Then we got some paste, brushes and a pasting board and set to work. So far so good. The paper went on fine. But—after it was done we decided the woodwork needed touching up. As we'd never done any painting either we splattered quite a few very noticeably oily looking spots on the new paper. We feel quite heartbroken about it. Do you know anything we can do about these stains? We'd be ever so grateful.

Mrs. B. White.

Dear Mrs. White:

I do hope you have some of the wallpaper left. If so, cut out pieces a little larger than the paint spots. Then give them a serrate edge—just tear out little bits from around the edges with your fingers. Paste one of these pieces of paper over each spot. I've found that, with mottled paper, this kind of patch won't show up as a patch with a straight-cut edge does. It is a good idea, when buying wallpaper, to get an extra roll for just such emergencies.

Dear Miss James:

I have a small pantry off my kitchen where I do my baking. It has a table for my work and above the table are three shelves a yard wide and closed in at the sides but open at the front. I've hung blue curtains in front of the shelves—my kitchen and pantry are blue and

white—but I find that I am always getting the curtains soiled when I have to push them back with flour-covered hands to get my spices, salt, etc., for I haven't room on the table for much more than my rolling pin. Now I know that this is really not a decorating problem but I just wondered if you had any ideas. Ann M. Dear Ann:

How about this for an idea—get a white window shade thirty-six inches wide and put it up over your shelves. Then you can raise it before you start to bake and your shelves will be easy to get at. When you are through baking simply pull the shade down again. This will leave your shelves looking spic and span when not in use and the white shade should match your kitchen and pantry very nicely. I hope this idea will help.

### Giant B.C. Douglas Fir To Be London Flagpole

LONDON. — A giant Douglas fir, gift of British Columbia to the London County Council, was unloaded recently from a ship in the Thames and will eventually become a flagpole near the county hall.

The pole, 108 feet long with a diameter of 37 inches at the butt and 19 inches at the top, weighs six tons and contains 461 cubic feet of timber. A county council official who attended the small unloading ceremony said the tree "is regarded as a kind gift of the British Columbia government."

There will be an official ceremony when the flagpole is eventually raised.

### GOOD MORNING, NEIGHBOR

—Fitzpatrick, in The St. Louis Post-Dispatch.

## HEALTH

### Foot Care Important To Health

When it comes to hard work, the heart outdistances the feet only by a narrow margin, say foot health officials. A very good reason why care of the feet, and a knowledge of how to buy shoes for correct fit, are important in the Canadian health picture.

Since it is estimated that eight out of 10 adults have foot troubles, and that studies indicate 85 per cent. of all adult foot troubles can be prevented before the feet have completed their growth and development, foot health education should begin at an early age. Widespread ignorance of the fact that it takes 20 years for feet to grow to maturity, is the principle reason why so many children have foot defects and deformities by the time they leave the public schools. Nearly all children are born with perfect feet but by the time they reach their first birthday eight per cent. have foot defects—this increases to 22 per cent. at the age of two, 41 per cent. by the time they are five years old. At 10 the number has increased to more than 50 per cent.

Few children ever complain about their feet, yet in one recent study, 76 per cent. of them wore shoes from one-half to three and a half sizes too short. Children's feet are pliable and because of their soft structure they will conform to the shape of the shoe without evidence of pain until nerves become irritated and the child's health is affected. There are warning signs of foot troubles and ill-fitting shoes, including unwillingness to walk, run or play in an otherwise normal, healthy child. It is unnatural for a child to be irritable, to wake at night and cry that their knees or legs are aching; these signs can result from excessive fatigue due to foot weaknesses or disturbances to which improper footwear is a contributing factor.

Foot health depends on well-fitting shoes, good posture, good walking habits, and correct care of the feet. Very important is properly fitting shoes.

### GEMS OF THOUGHT

#### RIGHTEOUSNESS

What cannot love and righteousness achieve for the race? All that can be accomplished, and more than history has yet recorded.—Mary Baker Eddy.

When Infinite Wisdom established the rule of right and honesty, He saw to it that Justice should be always the highest expediency.—Wendell Phillips.

To be perfectly just is an attribute of the divine nature; to be so to the utmost of our abilities, is the glory of man.—Joseph Addison.

Divine Providence has granted this gift to man, that those things which are honest are also the most advantageous.—Quintilian.

Seek ye first the kingdom of God, and his righteousness; and all these things shall be added unto you.

—Matthew 6:33.

## On The Side

—By— E. V. Durling

#### AS TO CATS

How large was the biggest cat you ever saw? In Melbourne, Australia, a "biggest cat" contest was held. The winner was a feline named "Montgomery", who is forty-one and a half inches long. Second was a cat named "Tiger", who weighs thirty-five pounds and has a girth of thirty-two inches.

#### PROLIFIC PAPA

Jimmy Faulkner, the world's oldest living ex-jockey, is ninety-six years old. He was one of thirty-two children. His father died in 1902 at the age of one hundred and four. As to offspring Jimmy has gone his pappy one better. He is the father of thirty-three children. He has eighty-three grandchildren.

#### BRIDE'S COOKING

Was your wife a good cook right from the beginning of your matrimonial career or did she develop herself as time went by? How about the first time in your married life you had dinner guests? Everything went smoothly, I hope. This comment inspired by a communication from a "just married" young woman of California, which said in part she was preparing a dinner for some "important guests". She described the dinner as follows: "Barbecued spareribs, baked potatoes with chopped green onion, green sweet peas, a green salad with sour cream and garlic dressing, and cream cheese pie." Sounds all right except for that garlic dressing. Oh well, people don't play post office after dinner parties. As for cream cheese pie, that's a new one on me.

#### OSTRICHES

That an ostrich sticks its head in the sand when frightened is a fallacy. Ostriches are not that stupid. That's what I note a quiz expert informs a questioner. He's only fifty per cent. right. Male ostriches do not stick their heads in the sand when frightened. But female ostriches do.

#### ASKING

What is the official decision of experts on the much and constantly discussed question: "Do women dress to impress other women or do they dress to appeal to men?" After considerable research and checking on this question, experts have definitely decided women dress to appeal to men and that it follows if a female is attired in a manner having a strong male appeal she will also impress women.

**VICTIMS OF FIRE**—Mrs. Albert Wienecke, 26, of Denbigh, Ont., with baby daughter, Margaret, were burned to death when fire levelled Mr. Wienecke's two-storey garage and restaurant. Albert Wienecke escaped by leaping through a window of their apartment over the garage.

Little Margaret Wienecke, who with her mother lost their lives in a disastrous fire that destroyed her father's garage and home. — S.N.S. photo.

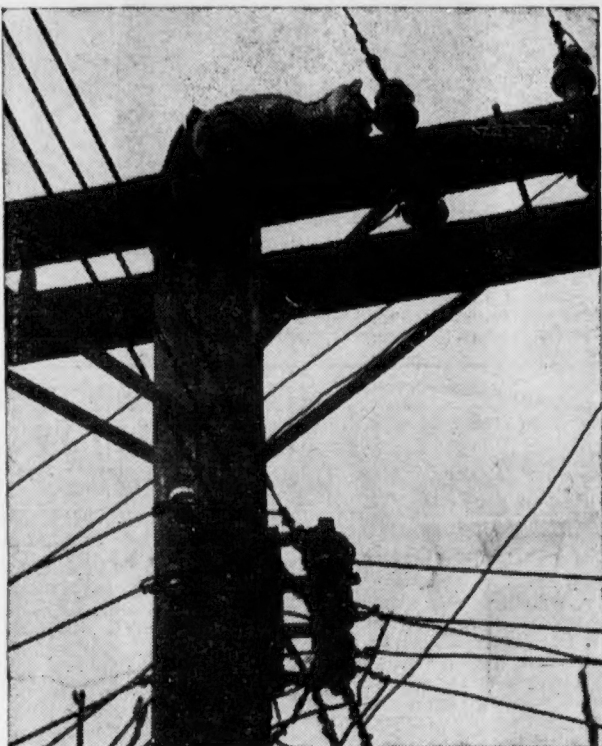

**SUCCESSFUL TURKEY RAISERS**—Twin brothers, Lester and Leslie Heppel, of Surrey, near Vancouver, B.C., have different ideas on turkey raising. Lester, (left), with an 80 acre farm pens his turkeys, while Leslie,

(right), with an adjoining 20 acre farm allows his birds to roam at will. Both of them are highly successful turkey raisers.

## No Food, No Water, Nothing For A Week

No food, no water, nothing for a week—that was the experience of this cat in Windsor, Ont., when chased up a hydro pole by dogs recently. The maze of live overhead wires stopped any attempt to rescue puss from the narrow crossbar 25 feet above ground—too dangerous, the hydro ruled. But the ending was a happy one. Coaxed by hunger, the cat finally inched its way through the wires that stopped man, to earth and safety.

**FEEDING ON PELLETS**—In the photo above, the chicks on the farm of J. C. Price and sons at Cooksville, Ont., are receiving a feed of pellets. They are started on broken, finer bits in the bottom of the bag. The use of pellets is to bring down the cost of waste that comes from mash feeding.

**TEACHER MAY HEAD DELEGATION TO U.N.**—Former teacher at Pickering college, Newmarket, Ont., John Holmes, 39, present head of the Canadian U.N. division at departmental headquarters, will probably become the temporary head of Canada's delegation to the United Nations. He would succeed Gen. A. G. L. McNaughton, whose term as delegate formally came to an end Dec. 31. He will likely act on a temporary basis until a permanent choice is made. — S.N.S. photo.

## The Adventures of Captain Morgan

19th EPISODE

**DOBBED OF THEIR SHIP, THE BUCCANEERS ARE STRANDED ON THE COAST OF YUCATAN. THEY LOOK TO CAPTAIN MORGAN TO RESCUE THEM.**

THE SPANIARDS MUST HAVE SHIPS HIDDEN NEARBY. MAKE UP TWO SEARCH PARTIES. I'LL STAND GUARD HERE WITH THE WOUNDED.

YOU'VE HEARD CAPTAIN MORGAN! ALL ABLE MEN WILL DRAW LOTS... I'LL HEAD THE FIRST PARTY NORTHWARD, AND D'APOSTO WILL GO SOUTH WITH THE OTHER.

YOU'RE SURE OF D'APOSTO, JACKMAN?

WELL, HE'S A SHREWD ONE. THAT'S WHAT WE NEED.

SIX HOURS GONE... AND NO SIGN OF SHIPS OR SEARCH PARTIES... THERE WON'T BE ANYTHING FOR ME TO BE CAPTAIN OF, IF NOTHING BREAKS SOON...

ONE HOUR LATER.

A SMALL BARGE IN SIGHT, CAPTAIN MORGAN, AND OUR MEN ARE ABOARD!

AT LAST! FIRE TWO SHOTS TO RECALL THE SOUTH PARTY!

THE SHIP IS SOUND, BUT IT'S WITHOUT STORES OR COMPASS.

JUST FILL THE WATER CASKS... THERE'S NO TIME TO LOSE, AND WE'RE ONLY GOING TO THE NEAREST ISLAND.

WE'LL BE TERRIBLY CROWDED IN THIS COCKLESHELL.

WELL, A TIGHT CARGO CAN'T SHIFT!

HOW FAR IS YOUR 'NEAREST' ISLAND, MORGAN?

THIS CHART I COPIED IN TORTUGA SAYS 100 MILES, ABOUT ONE DAY'S SAILING IN THIS BREEZE.

WHY DID YOU LEAVE HOME, SILAS?

WELL, YOU KNOW... FREEDOM... THE OPEN SPACES...

**EASY TO SERVE**—Easy access is offered articles sold at the Superior store in Belleville, Ont., after a recent hurricane carried away window. T. L. Dailey and Dave Walker are served by Fern Trustam. — S.N.S. photo.

## WORLD HAPPENINGS

### BRIEFLY TOLD

Canada is engaged in "the greatest tuberculosis case-finding program in the history of any modern nation," Hon. Paul Martin, Health Minister, said.

Thomas Holmes, youngest Canadian to win the Victoria Cross in First World War, died recently in Sunnybrook military hospital, Toronto. He was in his 51st year.

Russian scientists have produced a "grangerine" — a cross between a grapefruit and a tangerine—according to a story from Tass, official Soviet news agency, received in London.

A Berlin tailor who fell asleep in a street after an evening's celebration was roughly awakened by an ambulance which ran over him in the dark—and then took him to hospital.

E. L. Parry, a blind farmer, at Binley, Hampshire, England, milks 13 cows every day. He fills the churns and weighs them on a machine which has Braille dots embossed on the dial.

A befuddled celebrant in Vancouver hid \$100 in the steering column of his truck—he thought—just to play it safe. Later came the sobering discovery that the truck had been someone else's.

More than 500,000 Yugoslavs are being trained in anti-aircraft defences services, the Yugoslav news agency Tanjug reported. Another 170,000 volunteers for the civilian defence unit are expected this year.

The largest clock in Europe is being constructed at Strasbourg, Germany, to be sent to Norway. The dial is 28 feet in diameter, the two hands weigh 500 pounds and the minute hand moves in jerks of 8½ inches, each representing half a minute.

### IRRIGATION BENEFITS

COUTTS, Alta.—A new highway sign, on the bank of an irrigation canal near here, tells the story of prosperity brought by the water. The sign depicts some of Alberta's industries, from vegetable canning to prize beef breeding.

## Fashions

By ANNE ADAMS.

PATTERN 4576 SIZES 12-20  
Exceptional Casual

Anne Adams Pattern Dept.,  
Winnipeg Newspaper Union,  
60 Front Street W., Toronto.

August is the best month of the year to go swordfishing. 2866

## Craik New Memorial Rink

—Photo courtesy of Regina Leader-Post.

Craik and district may well be proud of their new Memorial Rink which was officially opened recently, as it is the climax of many long hours of voluntary labor besides great sacrifices in financial help given by the citizens. It is considered one of the best planned rinks that have been constructed in recent years. The rink is 210 feet long and 145 feet wide. It has three sheets of curling ice, and the main skating ice is 185 feet by 85 feet. The rink has a large waiting room with broom lockers across one end, seats for spectators in front of the windows. It also has an 85 foot gallery. The rink will accommodate 2,000 people. A public address system has been installed.

## DOLCIN LIMITED GRANTED PATENT

Acetylsalicylic acid has proven to be one of the most reliable and effective agents in the treatment of rheumatism and arthritis over the years.

A recent development for the treatment of rheumatism and arthritis has been the combining of a hitherto little-used compound, calcium succinate, with acetylsalicylic acid. This compound, calcium succinate, renders the acetylsalicylic acid non-toxic, allowing large, prolonged dosage to be taken with no harmful side effects.

This combination of acetylsalicylic acid and calcium succinate has become one of the widest used methods of therapy in the world for the treatment of rheumatism and arthritis. Dolcin Limited of Toronto recently were granted a patent in Canada for the use of this combination in the treatment of arthritis and rheumatism.

## Mother Told Operation R.C.M.P. For Alberta On Siamese Twins Will Be Successful

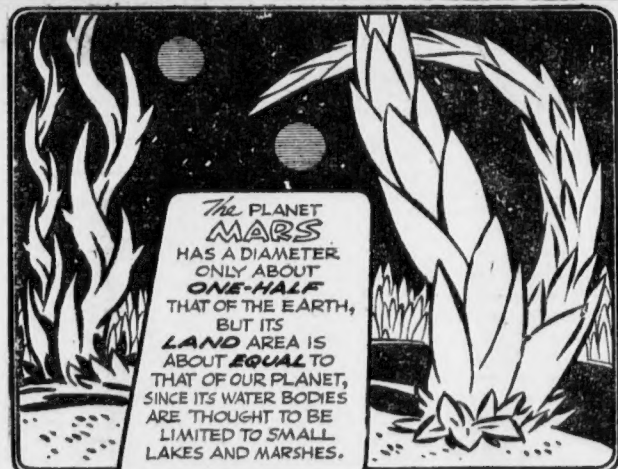

TOFIELD, Alta.—Mrs. E. A. Townsend, mother of Canada's only Siamese twins, said she had been informed by doctors that they are confident an operation to separate the children will be "completely successful".

The babies, who were two months old recently, came home from the hospital on the mother's 20th birthday and she said the doctors' news was "the grandest birthday present a mother could get."

"The doctors told me they plan a separation operation when the twins are six months of age and stronger," she said. "They say the operation has every chance of success as examination has revealed no vital organs are joined." The children are joined in front at a small section of the abdomen.

The electron is the fastest-moving known thing in the universe.

## KITCHEN MEDITATIONS

### Mending Overalls

By JANE DALE

The north wind roars around the house corner, Hurling a spray of snow across the garden walk. The window panes are trimmed with silvery lacework; The tips of little fingers are white as chalk.

It is a cold February day When springtime seems so far away.

The kitchen range is cherry red with fueling, And sends forth a warmth to fight the bitter cold.

The kettle sings and mother dreams while mending Father's denim overalls, milk stained and old.

He says he likes old garments best And mother's patches stands the hardest test.

The hours pass as mother sews and reminisces; She recalls her mother mending thus in days gone by.

Her hands work as right through memory's door

A troop of bygone scenes stand out before her eye.

The overalls, repaired, are neat once more,

And the wind dies down beyond the kitchen door.

### Weekly Tip

#### WOOLEN GARMENTS

To keep woollen garments from turning stiff and hard after washing, put a few drops of glycerine or a pinch of borax in the wash water.

### Answer To Last Week's Puzzle

# Never a Dull Moment When Bruin Is Hunted

By TAMARA ANDREEVA  
(Central Press Canadian  
Correspondent)

PACIFIC PALISADES, Cal.—Next to fish stories, tales about bears hold the attention of men everywhere, generation after generation; and little wonder; bears have among them some near-legendary characters, as do the men who hunt them.

The animals' prowess, strength, brain work, cunning, and their unusual feats of loyalty and endurance have fired the imagination of hunters ever since the first bear was hunted. One may add that it takes a real man to hunt a bear, and it takes a special kind of dog—ferocious and of unusual tenacity, to stand up to the crafty brutes.

Perhaps two of the most fascinating characters of the bruin tribe in the U.S. west are Lady Washington and Ben Franklin, two tame grizzlies which followed their master, the famous "Grizzly" Adams, on his hunts in the California Sierras around the 1860's.

Together with Adam's dog, Rambler, they share Adams' hardships, his food, and his kills. At times, the faithful grizzlies themselves were so badly torn up fighting to defend Adams from another grizzly or panther, that Adams had to doctor them for weeks before embarking on another hunt.

In spite of her ferocity in a fight, Lady Washington was so completely docile with her master, she carried Adams' pack on her ample back.

Three bears which have left their mark in the stories of North Carolina's Great Smokies, are Honest John, Old Three Toes, and Kittlefoot. Honest John was so named because although a cattle-killer, he would only kill enough to satisfy his hunger, never more.

However, with all his thrift, Honest John was a nuisance as a cunning beehive despoiler and corn patch robber. For many years shooting him was the ambition of every mountaineer in the area, but he managed to elude them all, until finally in November of 1947, Hack Smithdeal ended the decade-long feud. His trusty .30-.30 bagged Honest John. The bear weighed around 554 pounds and measured nearly seven feet from nose to tail.

Huge bear of Crusoe's island was called Kittlefoot because his footprints were so large, a kettle would barely cover them. Every hunter dreamed of bagging him, but for 20 years this remained little more than a dream. Some said that when he heard a baying pack, Kittlefoot would high-tail it to the game refuge until the heat was off. After two decades, a lucky shot ended his marauding career.

## Simple, Effective

Something new! See what an interesting pattern these single-stitches make. There's a bit of outline stitch too—and that's all!

These towels are quick, easy, and gay! Pattern 7145; transfer 7 motifs about 5½ x 7 inches.

Our improved pattern—visual with easy-to-see charts and photos, and complete directions—makes needlework easy.

To obtain this pattern send twenty-five cents in coins (stamps cannot be accepted) to:

Household Arts Department,

Address and Pattern Number.

GIANT KODIAK BEAR—This fellow is now guest of San Diego, Cal., zoo.  
—Central Press Canadian.

Old Three Toes went down in North Carolina's history as the most vicious and cunning bear anywhere. He would lead dogs through laurel slicks and rhododendron wilderness until they were plumb wore out. When he could, he would lure them to a swamp.

There, Old Three Toes would sit on a rock surrounded by water, waiting, a paw poised. As a hound swam up, Three Toes would lay it out, and hold it under water until it drowned. Then he would wait for another. Dogs he did not drown he mauled so badly they became useless. They say once a b'ar dog has been "whupped" by a b'ar, he's through.

The only dogs which could stand up to Old Three Toes were the Plotts belonging to the Wilsons, a legendary clan of b'ar hunters, hailing from a Daniel Boone of the Smokies, old Big Tom Wilson, the b'ar-huntingest grandpappy of 'em all. Big Tom hung up 113 bear skins before he quit. A grandson, Ewart, killed 50, and a son, Dolph, gave up after his 112th bear, they say, not to spoil his sire's record.

Honey, roots, corn, grubs, fish, and tender sprigs—the spring "mast"—are the bear's favorite natural morsels, but some become suddenly aware of the tender lamb chop and beef steak possibilities. These bears are determined killers and cannot be broken of killing cattle. One such cattle-killing bear is well remembered in Utah. In 15 years he killed nearly a thousand cattle.

In Montana's Yellowstone Park, marauding bears are tabulated by the Rangers as carefully as gangsters are by the FBI. By their crimes, the bruins are classified as lesser soft top rippers or lunch basket thieves, lady-frighteners or dangerous tourist-maulers.

The information about this last type is assembled with especial care, until the picture of the gangster bruin emerges complete, down to

footprints. At that point some bacon-baited barrel traps are set.

The bear is caught, and his forehead is marked with white paint, sign of a probationer. If he gets into mischief again, he is daubed once more around the muzzle. After the second probation, most bears become good bears. Bad ones become bear rugs.

To tangle with a bear of any description, but especially with a big black bear, requires a special kind of dog. Stories of bear dogs are as numerous and notable as stories of bears themselves. In localities where bear is still abundant, as in Arizona and North Carolina, a special strain of bear dog has been developed.

Some bear dogs are mixed Blue Tick, Plott, and Black and tan. The Plott's tenacity and nose work are proverbial. Howard Smith of Three Miles, N.C., had a bear dog named Sue. She followed and bayed the same bear for 74 hours. Smith tried to follow her, but could not tear through the dense underbrush and after 26 hours gave up. Sue had to be left alone with her b'ar.

The next day Smith went to call the dog. He blew his horn. Sue could still be heard baying feebly. After 74 hours she dragged into camp. "She did not give up," Smith said, "that b'ar starved her out."

A nameless bear of the steaming Green Swamp which teems with dog-eating alligators, would take to the swamp when closely pursued by the hounds. While 'gators let the bear swim across, as if in some secret pact, they ate the hounds. And no one knew this advantage better than the bear!

The end of that bear was a dog named Betty. This dog was owned by a man named Fernside, who claimed: "Betty could read the b'ar's mind. Other dogs could not read the b'ar's mind, but they could read Betty's." Simple?

## COMMUNITY LAYING NEST

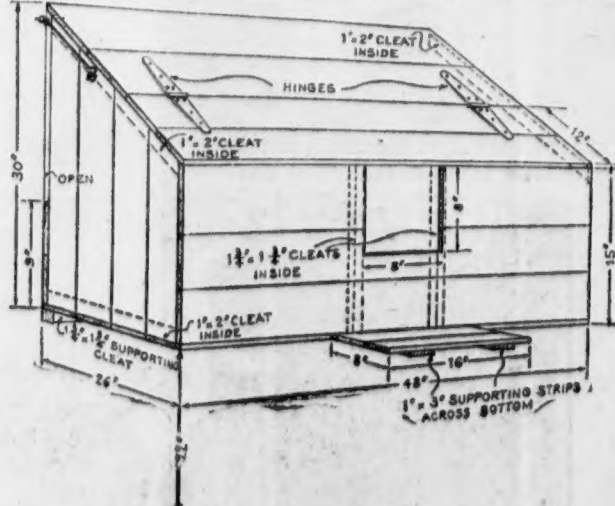

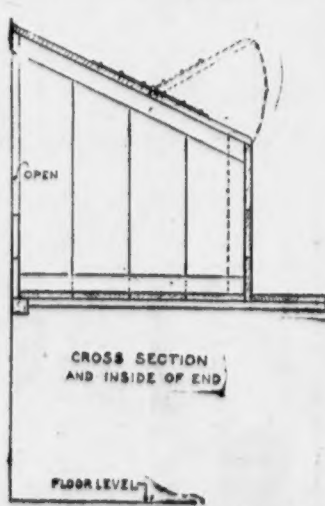

THE community laying nest for poultry houses is a development which is proving popular with many poultry men. We are showing a nest such as is used by the Poultry Department at Macdonald College. Dimensions of the nest are shown clearly in the drawing and a nest of this size will take care of the requirements for forty hens. For 250 hens it is likely that 6 of these nests would be sufficient. The nests are placed 22 inches above the floor.

The nests are built of matched lumber, the construction being of the end frame type. That is, the ends are made up first with cleats along the top and bottom edges, the top and bottom boards being nailed to these cleats rather than into the end grain of the boards in the ends of the nests. The nests are set on 1½ inch square blocks nailed against the wall of the house or against the partition between pens, and the upper ends are fastened to the wall by means of heavy hooks. Angle brackets of steel also could be used for

holding them against the wall, fastened by means of wood screws.

The main advantages over the single compartment nest are: the tendency for more than one bird to crowd into a single compartment nest is eliminated; broken eggs are reduced to a bare minimum; there are practically no dirty eggs and collecting is facilitated. Generous amounts of shavings, cut straw or sawdust is essential.

If the nesting material is permitted to become thinned, then broken and cracked eggs will result.

Drawing shows details for the construction for a community nest.

CHURCH GUTTED BY FIRE — Forty years of effort went up in smoke recently when fire destroyed Carleton Place, Ont., Zion United church with an estimated loss of \$150,000. Built after the great fire of 1910. The church was declared debt-free last summer. The ceremony of the burning of the mortgage was to be held at the annual business meeting a week after the fire occurred.—S.N.S. photo.

## How Old Can Wild Ducks Live?

What is the life expectancy of a duck that avoids hunters' guns and how far does it fly? The answers in the case of one adult male have been given by Egbert Jones, Modesto district duck bander in California. Jones banded this particular bird in Oct., 1933. In Ugashik, Alaska, 3,750 air miles away, John V. Struck killed the same pintail Sept. 22, 1948. Jones says this is the oldest by far of any duck of which he has a record. He estimated the duck was 18 by the time it got into the way of the Alaska hunter's shotgun.

## Helpful Hints

### Cleaning Elderdown

Examine the elderdown carefully and if you find soiled spots, soap them and scrub with a small brush. Hang the elderdown on a strong line and turn the hose on it. When one side is washed, turn and wash the other side. The water forces its way through the cotton and covering, making the elderdown as light and fluffy as when new.

When space in the refrigerator seems scarce, transfer some of the contents of the bowls to jars. A jar takes up much less space and will keep vegetables, salads, soups, etc., just as well as in the bowl, perhaps a little better.

When you purchase a man's shirt, inquire if the collar is designed to be worn soft, without starch. If so, be sure to ask the laundry to omit starch, or if you do your own washing, remember to leave out starch in that shirt.

One out of every 35 automobiles meets with some kind of an accident each year.

## SPORT

### Goalies Have Better Records This Season

All but two of the regular goalkeepers in the National Hockey League have better goals-against records this season than they had a year ago for the same period. One goalie, Jack Gelineau of Boston, was not in the League last season, therefore there is no comparable record for Jack.

There were 604 goals scored in the first 114 games played this season compared to 625 scored in the first 114 games a year ago. This is a decrease of 21 goals and is attributable to the net-minders improved showing.

Big Bill Durnan, five-time Vezina Trophy winning twine-tender of the Montreal Canadiens, boasts the best goals-against record this season. In 38 games Bill allowed 82 pucks to get behind him for an average of 2.16 goals-against per game. For the same period a year ago he had an average of 2.21. Durnan also shares the shutout leadership after the first 114 National League games this season. Durnan, Harry Lumley of Detroit and Turk Broda of Toronto each shut out the opposition on five occasions.

Harry Lumley, stellar netminder of the League-leading Red Wings and youngest goalie in the loop at 23 years of age, shows the biggest improvement in his record this semester. Lumley had the red light flashed on back of him 77 times in 35 games for an average of 2.20 goals-against per game. This is an improvement of .26 over a year ago when Harry's average was 2.46.

Bonny Prince Charlie Rayner of the Broadway-Blue Shirts comes along next with a goals-against average of 2.24. Chuck's average a year ago was 2.68. In 37 games he only let the puck slip by him 83 times. The raven-thatched New York goalie also racked up three shutouts.

Turk Broda, Toronto Maple Leafs' veteran cage custodian, slipped from a 2.79 average a year ago to 2.81 this season. In 38 games this year he's had 107 pucks enter his net. Broda and Brimsek are both two time Vezina Trophy winners.

Frank Brimsek showed the greatest change in his goals-against record this year. Last season he was playing with the Boston Bruins, while this campaign he's guarding the nets of the Chicago Black Hawks. Last season at this time Frank had a goals-against average of 2.78 per game. After 38 games this term he's allowed 123 goals to be scored on him for an average of 3.24. This is the highest goals-against record of any goalie in the loop. Brimsek recorded two shutouts during that time, too.

Jack Gelineau, Boston's rookie goalkeeper, had 120 goals scored against him in 39 games for an average of 3.08 per game. He also had three shutouts in those 39 contests.

Jim Henry, Chicago's goalie a year ago but who isn't in the League this season, had 137 goals-against in 38 games for a goals-against average of 3.60 per game at this time last year.

The Vezina Trophy does not go to the goalkeeper with the best average at the end of the regular season but goes to "the goalkeeper who has played the most games for the team with the fewest goals scored against it."

## HERE'S HEALTH

### GOOD PROGRESS

Henry: So you are building a new house, eh? How are you getting along with it?

Albert: Fine, I've got the roof and the mortgage on it, and expect to have the furnace and sheriff in before winter.

## OUR COMPLETE SHORT STORY—

## A Wedding for Susie

Her Wish  
Was Supplied.

By William D. Edwards

"I WANT to get married with big crowds around," said Susie over their soda. "I want policemen holding back the people and everybody having a tough time getting to the church and you and Dick having to run around the back because you can't get in any other way. And then Sergeant Murphy and me getting out of the car and everybody going wild with excitement and..."

"Susie!" Stan was laughing his head off. "What is it, you want, honey, a wedding or a circus?"

Susie's eyes sparkled. "Something to remember all our lives."

"But that kind of thing isn't for two orphans like us."

They looked at each other soberly. Then, like the sun coming from behind a cloud, a smile broke over Susie's face. "It would be wonderful, though."

Stan was thoughtful as he walked home later. It seemed such a little thing that Susie wanted, when you said it quickly. But maybe the Sarge would have an idea.

At the station, Sergeant Murphy's Irish blue eyes widened enormously as he listened.

"It's a miracle ye'd be wanting, son."

Now that Stan had said it, it sounded more hopeless than ever.

"Ah, 'tis wondrous and bewildering, the way a woman's mind will work!" Sergeant Murphy clapped a fatherly hand on Stan's shoulder. "But the ladies, saints be praised,

they have their reasons."

"And mind you, me boy, there's them that say the Irish are not practical. But if that's the way Susie wants it, then practical we must be. We can't be letting our Susie down on her wedding day."

"That's all very well, Sarge... but how can we...?"

"That's all right, me boy," the policeman put his arm around Stan's shoulder. "You've got things to see. Just leave it to me. On your way now. But there's something I'd be wanting in return."

"Sarge," Stan said breathlessly, "if you can pull this off for Susie... you can have anything you want."

Sergeant Murphy bubbled with laughter. "I'll be reminding you, Stan me boy. Don't you be forgetting now."

It was later, after the wedding, and they were home, that they were able to relax. That is, everyone but Susie. She was standing beside Stan, her fingers intertwined in his, her eyes wide with pride and happiness.

"Come clean," she said. "I want to know how you all managed it. Oh, it was wonderful, Stan darling, all those people. How did you ever get them to come? And imagine them all following the car down to the church! And, of course, darling, you and Dick were inside so you couldn't see the policemen around and how they had to make a path for Sergeant Murphy and me to get through..."

The Sarge, his frame shaking with laughter, came to Stan's aid.

"Nothing to it, Susie me darling. Nothing to it but a wee matter of re-routing the parade past the house and the church."

"Parade?" Susie was puzzled.

"And did you notice me fine boys in blue? A grand bunch of Irish lads they are. No need to coax them."

Sergeant Murphy was tickled by their amazement. "I guess you'd be forgetting what day this is, but I'm not! I'm making a mistake like that! Ye forgot about it being St. Patrick's day and all, and for that I'll be making you keep your promise!"

With Stan's hand tightly in hers, Susie said solemnly, "If Stan has made a promise, we will keep it."

Sergeant Murphy chuckled. "Ye'd be pleasing me mightily then, and St. Patrick too, if ye'd be calling the first little nipper, Patrick Murphy... mind ye both, that's your promise."

**B.C. Loading Grain For South Africa**

VANCOUVER.—First cargo, totaling 9,000 tons, in the movement of 100,000 tons to South Africa was loaded here recently, with the remainder to follow during the next few months. Additional export business in the form of four cargoes to Antwerp was being worked on by local grain men.

**ALBERTA LOOKS AHEAD**

Dr. J. L. Robinson, Alberta's labor minister forecasts that power lines would reach 30,000 farm homes in the province by 1955.

**WAKE UP YOUR LIVER BILE—**

Without Calomel—And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out about 2 pints of bile juice into your digestive tract every day. If this bile is not flowing freely, your food may not digest. It may just decay in the digestive tract. Then gas bloats up your stomach. You get constipated. You feel sour, sunk and the world looks punk.

It takes those mild, gentle Carter's Little Liver Pills to get those 2 pints of bile flowing freely to make you feel "up and up."

Get a package today. Effective in making bile flow freely. Ask for Carter's Little Liver Pills, 50¢ at any drugstore.

**MEAT-EATERS ARE Blamed For Wars**

TORONTO.—The basic cause of war is meat-eating, A. B. Davies of Hamilton said here recently.

Mr. Davies, who describes himself as a naturopath, told the Toronto unit of the Canadian Vegetarian Union that meat-eating and fighting will always be inseparable. The meat-eater is a "born fighter," he said.

"The title of his address was 'why no peace without vegetarianism?'"

## Western Briefs

## Prairies Get \$9,000,000

WINNIPEG.—Approximately \$9,000,000 of the \$49,000,000 spent in Canada in unemployment insurance benefits during 1949 was issued in the prairie region, according to Fred J. White, regional supervisor of the national employment insurance commission.

## Orchid In Bloom

EDMONTON.—An orchid, a delicate tropical bloom usually grown only in hothouses in the Northern Hemisphere, has come to light here during one of the worst cold snaps in Alberta's history. Three purple and pink blossoms burst on a plant kept in the home of Mrs. Dairy Wilders. Florists said it is unusual for an orchid to live in a house.

## Carspiel Dates Set

ROSETOWN, Sask. — Officials of the Rosetown automobile bonspiel announced that another car bonspiel will be held in 1951. The 'spiel will run for a week commencing Jan. 15. Entries will be limited to 128 Saskatchewan rinks.

## Cracking Down On Firetraps

WINNIPEG.—Cracking down on city firetraps is paying off by saving human lives and "hundreds of thousands of dollars worth of property," Winnipeg fire department officials emphasized. Fire Chief David Clawson recently warned that his department in 1950 was going to wage an all-out war against persons who allowed their homes or business premises to become potential deathtraps simply because they wouldn't obey elementary fire precaution regulations.

## School At Border

REGINA.—W. S. Lloyd, Education minister of Saskatchewan said negotiations are in progress regarding the building of a school at Creighton, a settlement on the Saskatchewan side of the Manitoba-Saskatchewan border.

## Took It With Him

PORTAGE LA PRAIRIE, Man. — A stout armchair has gone from the memorial hall in the rural municipality of Portage la Prairie. It was given to Reeve A. McCallister, who used it for nine years, when he left office.

## Still Growing

CRANBERRY PORTAGE, Man.—Early last summer a young moose entered a camp near here and put himself under the protection of two husky dogs. The friendly moose is still around the camp—but now he's several sizes larger than his foster-mother and brother.

## The Hard Way

VANCOUVER.—A Vancouver man was held on a vagrancy charge after admitting he had wanted to steal a car. But it wasn't a regular theft case. Police said he'll also have a mental examination. He was caught trying to steal the car by pushing it down the street because he couldn't drive.

## May Issue License

VANCOUVER.—British Columbia's comptroller of water rights, Maj. R. C. Farrow, has announced that he is "prepared" to issue a license to Aluminum Co. of Canada for power development of the Nechako-Nanika River systems in northern B.C.

## "Long-Ears" Property Of B.C. Man

This unusual picture, reminiscent of a current popular song with the refrain "Mule Tra-a-l-n-n-n", came from Armstrong, B.C. The long-ears are the property of Art Shannon, who works them on his ranch and says that these four light mules will pull a binder all day and never sweat a hair. The mules are also a familiar sight at rodeos in Western Canada and Washington, where Art often enters them in the chuck wagon races.

## AUSTRALIAN SPECIALIST TO STUDY CANADIAN SOILS

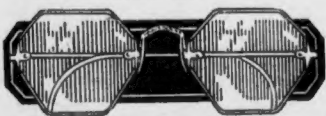

SWIFT CURRENT, Sask.—Dr. T. J. Marshall, noted Australian soil specialist, will spend five weeks in Canada this spring studying Canadian soils. Much of his time will be spent at the Dominion experimental station here studying methods of preventing wind erosion and soil drifting.

A bushel of wheat weighing 60 pounds contains approximately one million kernels.

**Sew and Save Week**

From February 18 to 25 The Carbon Trading Co. is featuring National Sew and Save Week which is being held for the first time in Canada. Special showings of Spring fashions in patterns, fabrics and new sewing accessories will be on display during Sew and Save Week and home sewers will be able to view the wide variety of sewing products which have been produced by Canadian manufacturers this season.

The Carbon Trading Co. is co-operating with stores all across the country to present the Canadian home-sewer with an entire week of interesting events highlighting all the sewing requirements she will want to see before planning her new spring wardrobe. She need go no farther than The Carbon Trading Co. to find everything she will want to consider for her new spring outfit—from the lowliest pins to the best materials.

**USE THE CLASSIFIEDS**

Carbon curlers did well at the Swaiwell last week, with four of the five rinks entered getting in to the prizee. The Wilf Skerry rink took first in the main event and Ted Schmidt third. "Dusty" Poxon also won a third prize in No. 3 event and Leo Halstead's aggregation took fourth prize in No. 4 competition.

An account of the Zachariassen-Dresser wedding will appear in the next issue of The Chronicle.

**Carnival Queen**

MARY FLAWS

Mrs. C. Trumbley of Forest Lawn recently spent a weekend at Banff with a cousin, Mrs. R.J. Cain, whom she had not seen for 42 years.

Rev. Jacob G. Rott will conduct morning services at the Carbon Baptist Church and evening services at Zion Baptist Church on Sunday, February 12.

Born to Mr. and Mrs. Gideon Schell on Monday, February 6, a daughter.

Members of the Duke of York Chapter I.O.D.E. will attend the service at the Anglican church on Sunday in commemoration of the organization's anniversary. Members are requested to meet in the church basement prior to the service.

Born to Mr. and Mrs. Douglas Prowse on Saturday, February 5, a son.

**CARD OF THANKS**

I wish to take this opportunity to sincerely thank the Carbon Oldtimers' Association for the beautiful flowers while in the hospital.

TOTAL LIABILITIES	\$16,223.70

**AUDITOR'S CERTIFICATE**

I have audited the accounts of the Village of Carbon for the year ending December 31st, 1949, and have compared the said accounts with their relative vouchers and certify that in my opinion the foregoing financial statements are properly drawn up so as to exhibit a true and correct view of the financial affairs of the Municipality, according to the best of my information, the explanations given to me, and as shown by the records.

Dated at Calgary, this 25th day of January, 1950.

C. V. MILNE, C.A.,  
217 Dominion Bank Bldg., Calgary, Alta.

**SECRETARY-TREASURER'S CERTIFICATE**

The information contained in this Report is as shown by the Books and Records of the Municipality, from my own observation, or obtained from other officials of the Municipality—all of which I certify to be true and correct according to the best of my knowledge and belief, AND IN AGREEMENT WITH THE AUDITOR'S REPORT WHERE NECESSARY.

S. F. TORRANCE,  
Dated January 21st, 1950. Secretary-Treasurer
